

Quietly Take Control

With a Low-Noise
Variable Speed Pump Solution

WisperFlo™ SERIES

Submersible Turbine - Ultra-Quiet Pumps

The WisperFlo™ Series is a highly compact, customizable package designed for **HIGH FLOW – HIGH BOOST** applications. It features **NSF 61** Rated, **304 S.S.** multi-stage, submersible turbine pumps with **304 S.S.** casing, diffusers and impeller. All controls are protected within a **NEMA 3R** forced-air ventilated enclosure with inlet filter and **NEMA 4X** active incoming surge suppressor with LED indicator.

iQFlo^{3.0}

Integral to All Systems

- **iQFlo™ 3.0** Award-Winning Variable Speed B.O.S.S. (Booster Operating System Software)
- **GreenFlo™** ASHRAE/ANSI/IES Standard 90.1 Compliant Low-Flow Energy Optimization Algorithm

WisperFlo™ Features

- **5 Year Limited Warranty** on the entire 3rd party certified system
- **304 Stainless Steel** headers and square tube space frame
- **Standard 100,000 SCCR Controller Rating** at incoming disconnect
- **NSF 61 and NSF 372 System Compliance** (N-5946/7626 IAPMO)
- **7" TFT Full Color Touchscreen** with easy-to-follow wizards
- **Ultra-Quiet Submersible Pumps** mounted in fluid, leveraging the sound-attenuating properties of water
- **Temperature Sensors** within each canister monitor internal submersible motors
- **Simplex, Duplex, Triplex and Quadraplex** systems in a multitude of voltages/horsepowers
- **Horizontal and Vertical** mounting configurations
