

# [ E=MC<sup>2</sup> Lease-to-Own Program ]

## Invest in Efficiency and Start Saving Now

In need of our state-of-the-art equipment but need support paying for the expense upfront? We have you covered. With our E=MC<sup>2</sup> Lease-to-Own program, you can purchase booster packages and other QuantumFlo systems to manage your building's water needs without capital outlay. Our variable speed pumps will maximize your building's energy efficiency, help you avoid high maintenance costs and yield immediate cash savings.

**With our flexible financing and 12 to 60 month lease terms, you can invest in an efficient booster system and begin saving water, energy and money right away.**

## Lease-to-Own Benefits

- Total project financing bundles the following into one affordable monthly payment:
  - New Equipment
  - Installation
  - Training
  - Warranties
  - Services Contract
  - Freight
  - Accessories
- Enjoy customized savings through:
  - 12 to 60 Month Lease Terms
  - Tax Deductible Spending\*
  - No Capital Outlay
- Reclaimed energy and maintenance costs could offset the entire price of a new system over a short period of time.
- Variable speed technology reduces carbon footprint and adds LEED "Green Points" to your building.
